Registration, immigration and hiring

These are three separate decisions, made by different organisations. Getting one doesn't give you the others.

Immigration	Work permission is a separate process.

How we work with you

1. **Start with the Pathway Finder.** It's free and takes a few minutes. You see which routes suit your profile and what you'll need, before we ask for anything.
2. **Talk it through.** In a 30-minute consultation we go through your Finder results, your documents and your priorities, and agree the route that makes sense.
3. **Get a written plan.** You leave with the order of steps: verification, exams, applications and job search.
4. **We prepare the application with you.** If you choose a pathway package, we work through the checklist with you, review your documents and CV, and prepare each application before you submit it.
5. **Job search and interviews.** We help you target the right employers, write a CV that fits the country, and prepare for interviews.
6. **Stay with you to the next milestone.** We keep working with you until the step the package covers is done, and we tell you plainly when something is outside our control.
